Condo Buyer's Guide

QUADRA
HOMES

Features that are key to buying any condo

Natural Gas:

- One of the first things buyers ask: Can we have natural gas?
- Our suites come with a 5 burner gas range (with electric ovens)
- Your deck or patio has a natural gas BBQ outlet
- Natural gas is included in your strata fees, "no meter charge"

Air Conditioning ready!!

- Every suite is prepped with vents to the outdoors to accommodate portable air-conditioning units (supplied)
- Supplied A/C unit is a heat pump supplying both air conditioning and heating
- Power supplied by 20 amp dedicated electrical outlets

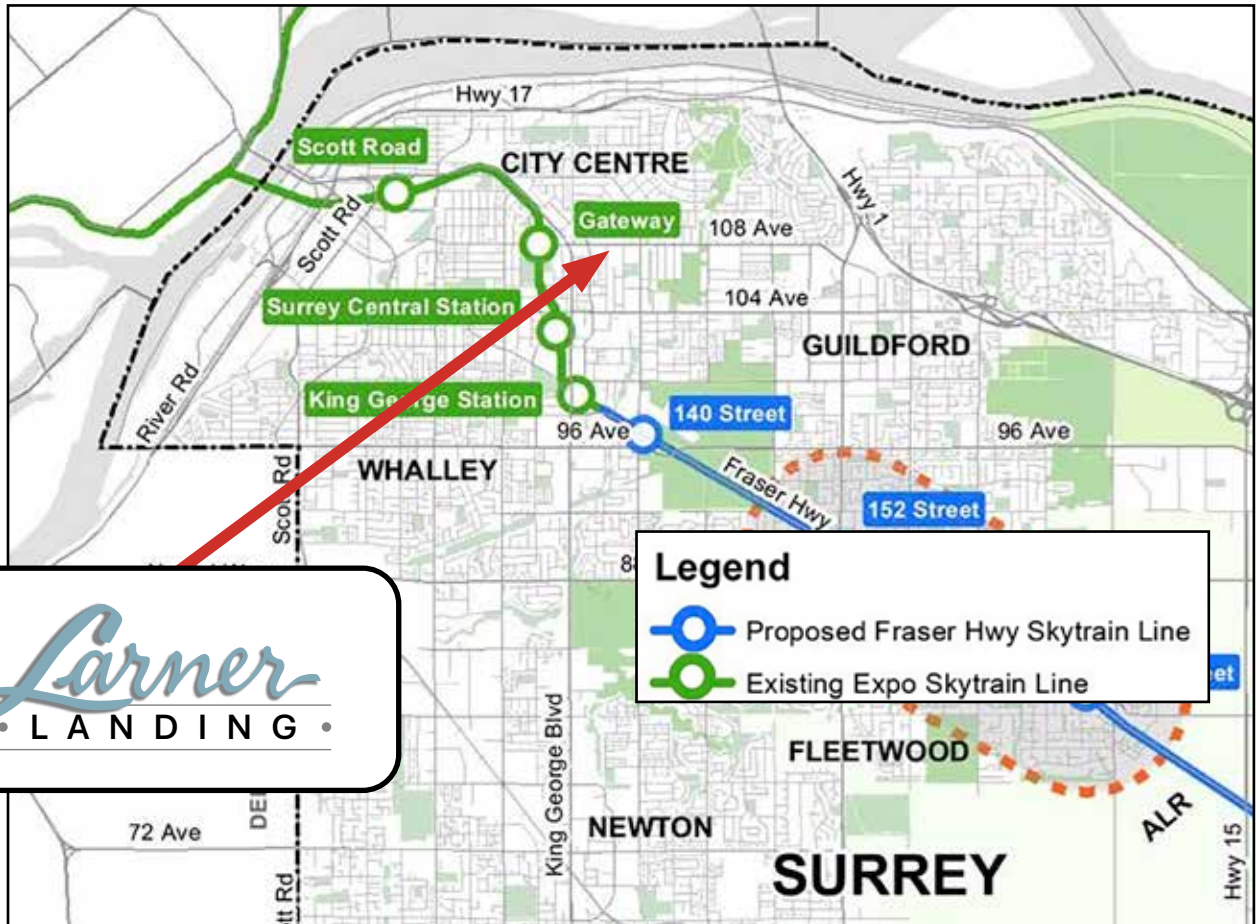

Transit:

Everyone wants to be able to connect to our world-class SkyTrain system. There is a regular bus stop near Lerner Landing.

Lerner Landing is only a ten minute walk to the Gateway Skytrain Station.

Features that are key to buying any condo

Technology:

- State of the art fibre-optic cabling to the building
- Bedrooms and kitchens have an electrical outlet that includes **2 USB charging ports**, eliminating ugly adapters all over the place

Quality:

- Most buildings are built to “rental grade”, **not** Larner Landing
- Our high quality is easy to spot:
 - **High speed elevators**
 - High end moulding package
 - **9 ft ceilings, even higher on most top floor living rooms**
 - Oversize windows
 - **Elegant 7 foot doors**
 - Energy efficient windows
 - Windows are finished with casing on all sides
 - Oversize elevator cabs for ease of access and moving large items

NOTE: High quality leads to low strata fees.

Most buildings of this type have elevator speeds of 100 to 150 fpm.

Larner Landing elevators are 200 feet per minute.

9 foot Ceilings:

- Old fashioned construction and even most of today’s high-rise buildings have 8 foot high ceilings. Larner Landing condos have **9 foot ceilings** (most top floor suites have even higher living room ceilings) offering a much airier, elegant feel.

Interior Design:

- We avoid the minimalist “downtown” look inside our suites
- At Lerner Landing our interior designers **spend the money** on:
 - High-end moulding package
 - **7 foot doors**
 - High-end fixtures and appliances
 - **Wood** closet systems (not wire)
 - **Frameless** showers
 - High-end cabinetry and carpentry
 - **Oversize windows**
 - Generous use of mirrors, tile and quartz

Energy Efficiency:

- Energy efficient buildings **save their owners money** on utilities and strata fees
- Our hot water system uses high tech **condensing** boilers to cut gas consumption
- Our acoustic package doubles as an extra layer of insulation
- Use of energy efficient lighting throughout
- Low E windows
- **Energy Star appliances** and equipment where possible

Features that are key to buying any condo

Size of Suites:

- It's not always easy to find **larger suites** in new developments
- Lerner Landing offers large suites with up to **1058** sq.ft. of living space

Quieter Suites:

With Our Outstanding Acoustic Package

Floors

- Floors are a hybrid concrete/wood construction system
- The flooring underside assembly has **sound-dampening** R20 insulation

Walls

- Side-by-side suites each have their own separate walls
- Walls are insulated, and each side has **2 layers** of 5/8" drywall or a layer of wood
- Some windows have extra sound abatement features.

Finished Floors

- **Acoustic** vinyl wood-grained plank flooring

Ceilings

- Ceilings between suites have double layer drywall
- Ceiling drywall is mounted on **sound-bar** channel to block sound transmission
- Ceiling systems include sound dampening insulation.

Other acoustic precautions

- Electrical receptacles are back-insulated on walls between suites
- Features that penetrate the sound barrier are avoided on surfaces between suites
- Vertical main plumbing lines are **rubber mounted**

Acoustic Wall Assembly

1. Double layers on each side
2. Separated to reduce sound transfer
3. Insulation in each of the walls

Quiet is not silent

Older buildings are notorious for sound transmission between suites. Lerner Landing goes many steps **beyond what is required in the building code**. Even with this extra acoustic work, you will still be able to detect other people living in your building.

Strata Fees & Rules

At Larner Landing, monthly strata fees are **competitive**, estimated at an average of \$0.49/sq.ft./month of livable area for 2027

Strata Fees include:

- Fire/Water/Flood/Earthquake **insurance** that is required for your mortgage
- **Domestic hot water and common area heating** from high-efficiency condensing natural gas boilers
- **Natural gas** for both kitchen range and BBQ is included
- Enterphone security system (*Worth over \$200,000, purchased and installed by the developer eliminating monthly lease costs; helping keep Larner Landing strata fees low. Typical projects lease the Enterphone system adding to the monthly strata fees.*)

Strata Rules:

- 2 pets allowed up to 30 kg each
- No age restrictions
- Renting permitted, a British Columbia law (2010) does not permit strata councils to change rental status

Electric Vehicle Charging:

- **Every suite** has a parking spot pre-wired to accept an EV charger
- Chargers can be up to Level 2 - 240VAC
- The EV charging management system will be decided by the Strata. Only chargers compatible with the selected system will be allowed

Architecture:

- Larner Landing has **stunning Modern architecture** featuring extensive use of:
 - Durable, weather-resistant siding
 - Brick
 - Decorative exterior Panels
 - Glass

Features that are key to buying any condo

19 Features of an Elegant Bathroom:

1. Heated tile floor
2. Quartz vanity top
3. Luxury height countertops
4. Soft-closing cabinet doors
5. Full extension, soft-closing drawers

- Each suite is pre-wired for an individual security system
- Each suite has a built-in wall safe
- Each suite has a Carbon Monoxide detector
- Your suite is sprinklered including decks and attics
- Our buildings have a Travelers Canada 2-5-10 year warranty
- Shut-off valves to protect your suite from potential leaks:
 - We have accessible shut-off valves for the clothes washer
 - We also have shut-off valves for the dishwasher and refrigerator
 - You can use the MASTER shut-off valve if you are away from your suite for an extended period

Wall safe

High-end Appliances:

Range:

- Dual fuel, Stainless steel
- 5 burner natural gas cooktop
- True European convection with precise air

Refrigerator:

- Stainless steel
- French doors with lower freezer drawer
- Ice and water dispenser

Dishwasher:

- Well insulated with stainless interior and exterior

Microwave:

- Built-in stainless steel, full-size microwave oven
- Loaded with features

NOTE: Each suite also includes a front loading washer and dryer

*Appliances subject to change as manufacturers change specifications
Studio appliances differ

Easy

3 Steps to Buying a Home at Larner Landing

1. Pick a home and write a contract

- **Pay nothing** at this time.
- Think about it for a week, **you are not committed**.
- **Talk to a lender** and make sure you qualify for a mortgage, this step is particularly important for first time buyers and we can help you with this step.

2. If you still want to go ahead

- Make the Contract "firm" and pay a \$10,000 non-refundable deposit.

3. 2nd deposit after 60 days:

- Increase your deposit to 5% of the purchase price sixty days after making the first deposit.
- For many buyers these deposits will be their entire down payment. Some buyers will want to add more to their down payment when they occupy their suite so they have lower payments.

That's it! Now wait for your suite to be completed.

Before you take possession you will go through the suite with a **quality inspector** to make sure everything is finished and to your liking.

Example: Homeowner buys a suite for \$729,900

1. Buyer writes contract, **pays nothing**
2. 7 days later Buyer makes contract firm and **pays \$10,000**
3. 60 days after that Buyer **pays remainder of 5% down payment**

No more money is needed until you take possession

BUYING YOUR HOME

About Mortgages

There are two basic kinds of mortgage loans:

1. **Conventional Mortgage:** This is where you have 20% or more of the purchase price to put down by the time you take possession (the down payment). This is the easiest loan to qualify for and is usually paid back over 25 or 30 years. The more years, the lower the monthly payments. **This type of mortgage is the best deal for buyers.** It is often easier to qualify for these mortgages at credit unions than at banks. (See section on Mortgage Stress Test)
2. **Insured Mortgages:** When the purchaser has **a down payment of less than 20% of the purchase price they will need an insured mortgage.** In the case of an insured mortgage the minimum down payment is 5% for the first \$500,000 of the price, and 10% for the remainder of the price. For example, a home costing \$500,000 will require at least a \$25,000 down payment. A home costing \$600,000 will require a \$35,000 down payment. The deposits you made when you first entered into the Contract will form part or all of the down payment. You need any remainder of the down payment when you close and occupy the new home. The government mortgage insurance company will typically add 3 or 4% to your payments to cover the insurance. You can have up to 30 years to repay your mortgage loan. Insured mortgages are available for owner occupied homes selling for under 1 million dollars.

The Mortgage Stress Test

- If you deal with a federally regulated bank you need to **qualify** for a mortgage at a much higher rate than you actually pay, even for conventional mortgages.
- This means you may have a mortgage at 4% and make payments at the 4% rate... BUT you need to have income to qualify for a mortgage at the Bank of Canada Benchmark Rate of 5.25% (or more) or 2% above your mortgage contract rate (whichever is higher) when borrowing at a bank.
- **Many credit unions have a different system.** Many credit unions require you to qualify at **their** 5 year rate, say 4%, not at the federal stress test rates.
- In short, it is easier to qualify for a conventional mortgage at **the credit unions that use these systems.**
- On **insured** mortgages where there is a small down payment (5-19% down) **all** mortgages must pass the Bank of Canada stress test rates whether at a bank or a credit union.

Other things you should consider about mortgages:

- You need to show income to qualify for a mortgage. Several factors can affect how much you can borrow. If you are not getting good results, consider a different lender or mortgage broker.
- For a **very rough estimate** of how big a mortgage you can qualify for, take your total household annual income before deductions and multiply by 4.5 for a credit union mortgage, or multiply by 4 for a bank mortgage. For example if you and your spouse/partner have a gross annual income of \$100,000, you may qualify for a \$450,000 mortgage. Other credit factors can affect these numbers either way.
- The buyer usually has the option to fix the interest rate for a certain number of years. With a fixed rate mortgage, your payments remain the same for the full term, offering stability. If you have a flexible budget and can tolerate slightly more risk, a variable rate mortgage could be best for your needs. Your lender or mortgage broker will be able to help you find the best option for your situation.
- If you have trouble qualifying for a mortgage, some people ask a relative or close friend to co-sign the mortgage, which means they agree to pay if you don't.
- When talking to your bank or credit union **use the price including the GST** so that the GST cost is included in your mortgage.
- Be careful! Many mortgage companies want you to buy life insurance for your mortgage, **this is optional.** Often mortgage companies **charge double** the price for life insurance compared to what you can get on a term life insurance policy from a life insurance company.

Understanding the Costs of Moving In

1. If your deposit was not enough to cover your entire down payment you will be expected to provide the rest of the down payment at move-in time.
2. Real Estate commissions are paid by the seller, so **you have no cost** for this.
3. New properties have a sales tax called GST; this should have been added to the price before the mortgage was obtained so that **no funds are needed for this tax** at the time of possession if you have a mortgage. When you arrange your mortgage loan, discuss having the GST included in the mortgage amount with your lender.

For properties over \$450,000 the GST rate is 5%.

4. If you have less than 20% down you will have mortgage insurance (about 3-4% of your mortgage). This premium will be added on top of your mortgage once at the beginning, so **you do not have to pay** this premium in cash at possession time.
5. In BC there is a sales tax on property called the Property Transfer Tax (PTT). **This tax does not apply to NEW residences** under \$1,100,000 (and partially applies to NEW residences between \$1,100,000 and \$1,150,000) when used as a primary residence by Canadian buyers or permanent residents. **The tax does apply to all used homes** and new homes over \$1,100,000.
6. Your bank may have an appraisal fee to be paid when you buy, but most lenders will waive this fee. If they don't it is often about \$300.
7. Your lawyer will charge you legal fees to handle your share of legal work for the purchase, these fees are often about \$900 and must be paid when you take possession. There may be property tax adjustment of a few hundred dollars when you move in, depending on the time of year that you take possession. [Sometimes your bank will pay part of these closing fees as a gift to you for using them for your mortgage].
8. Sometimes utilities will charge you a fee of \$50 to \$70 to hook up power for the first time.
9. The fire/water/flood/earthquake insurance your mortgage company requires is already provided by your strata corporation. **You do not need to purchase more insurance if you don't want to.** The included insurance does not include your contents or personal liability. We recommend buyers purchase additional contents and personal liability insurance.
10. Finally, there is often the added cost of a moving van to move your possessions in.

GST

Prices quoted do not include GST. Most buyers include the 5% GST in their mortgage so they **don't** have to write a cheque for GST when they move in.

Government incentives:

For Everyone:

- **ZERO PTT for Canadians & Landed Immigrants**

Property Transfer Tax (PTT). This tax is a provincial sales tax on real estate and is **zero** for Canadian citizens or permanent residents who will be using their purchase as their primary residence. The price limit is \$1,100,000 before GST for a 100% exemption on new homes. Between \$1,100,000 and \$1,150,000 a partial exemption is available on new homes. Over \$1,150,000 the full PTT applies. **This program is only available for NEW residences**, all used residences must pay the PTT. **This program is for all buyers, first time or not.**

For First Time Buyers (or People who haven't owned property in the past 4 years):

- **USING RRSPs**

Any **first time buyer** or people who **haven't owned property in the past 4 years** can borrow up to \$35,000 tax free from their RRSP. If two people are buying and one has owned in the past 4 years and the other hasn't, then the one that hasn't owned can still use their RRSP funds to buy. These funds must be repaid to your RRSP within 15 years. See your lender for details.

First Time Buyers (or People who haven't owned property in the last 4 years):

- **\$1,500 TAX CREDIT**

First Time Home Buyers Tax Credit (HBTC). This is a tax credit (cash!) of up to \$1,500 for **both first time buyers** and buyers who **have not owned in the past 4 years**. With HBTC if two people are buying, neither may have owned in the past 4 years. To get this tax credit you must be earning enough income to be paying federal income tax.

(To get this tax credit, at tax time enter \$10,000 on line 31270 of your tax return if you are not splitting the amount with your spouse or common-law partner. You and your spouse or common-law partner can split the claim but the combined total cannot be more than \$10,000. When more than one person is entitled to the amount, the total of all amounts claimed cannot exceed \$10,000.)
